

Mining Safety and Health Advisory Committee Respirable Crystalline Silica forum

A forum to collaborate and share learnings for developing, implementing, and maintaining effective controls associated with respirable dust.

When

Thursday 30 June 2022
9:00 am–2:00 pm

Where

The University of Queensland
Brisbane City campus
The Auditorium
293 Queen Street, Brisbane

| Time | Topic | Presenter |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| 9.00–9.15 am | Arrival/tea and coffee | |
| 9.15–9.25 am | Opening address | <ul style="list-style-type: none"> Kate du Preez |
| 9.30–10.30 am | RSHQ session <ul style="list-style-type: none"> Overview of dust/RCS controls, exceedance investigations Lessons learned in the coal industry and compressed air project. | <ul style="list-style-type: none"> Samantha Forster Fritz Djukic |
| 10.35–11.35 am | Quarries session <ul style="list-style-type: none"> CCAA combined presentation <ul style="list-style-type: none"> Quarrying industry control measures to reduce exceedances Practical implications of these measures Emerging issues for quarry operators in the implementation of controls. Overview of current industry practices. The journey of developing and implementing controls associated with RSC at Wolffdene | <ul style="list-style-type: none"> Aaron Johnstone Peter Aspinall David Leahy |
| 11.35–11.50 am | Tea break | |
| 11.50 am–12.50 pm | Industry session <ul style="list-style-type: none"> Glencore's journey of implementing controls for dust Respirable crystalline silica particle size and implementation of controls Integrated Incident Response Program | <ul style="list-style-type: none"> Glencore Nikky LaBranche Lionel Smith |
| 12.55–1.45 pm | Panel session <ul style="list-style-type: none"> Developing, implementing, and maintaining practically effective controls associated with respirable dust | <ul style="list-style-type: none"> Trevor Brown Clayton Hill Maryann Wipaki |
| 1.45–2.00 pm | Closing remarks | <ul style="list-style-type: none"> MSHAC members |
